Thank you for considering 2Cool AirVents for all of your snowmobile vent needs.

Complete the dealer application being sure to include your Federal ID number. If you are within the State of Idaho, we will need a copy of your State resale certificate (ST-101) form.

Once we receive your application, we will contact you for your initial order and to send you the price sheet. We require an initial order of five (5) pair of vents paid for with business credit card or cashier's check or money order, unless other arrangements are made.

A little bit of information about our vents:

- We include prefilter on all the clutch side vents to keep snow away from the clutches.
- There are eight (8) colors to choose from: black, gray, white, blue, green, red, yellow and orange (we will send color samples with your initial order).
- We are able to accommodate requests for custom graphics or numbers on vents for an additional fee.
- New this year, we are including rivets in matching colors where available, black with everything else. If requested, we will send natural (aluminum) rivets.
- The frames are made from water cut aluminum, so are sturdy and do not have welds that will crack.
- The material we use is very tough, but if it does get a rip/hole in it, the vents can be returned to us to be rebuilt for a nominal fee plus shipping – cost depends on size of vent. Rebuild is contingent on whether the frame is reusable.
- If you intend to install them as the dealer, we can provide a template for you. We do NOT suggest cutting out the entire area under the vent, just use a holesaw. This leaves more material for support.
- Black vents are considered re-stockable. If you buy colored vents for a customer and they do not pick them up, call us and we will make the decision at that point whether we will take them back.

Contact us if you have any questions 208-587-8584.

We are look forward to a great business relationship with you and your company!

Thank you again for your interest in our product.
